About ASRI

The **American Society for Reproductive Immunology (ASRI)** was founded in 1981 with the mission to foster the development of reproductive immunology research, increase intellectual exchange between clinical and basic branches of reproductive immunology and provide mentoring for scientists-in-training.

The ASRI is home to a diverse membership that includes clinical and basic scientists specializing in Obstetrics & Gynecology, Reproductive Biology, Microbiology, Mucosal Immunology, Genetics, Pediatrics, Infectious Diseases, Endocrinology, Pathology and Animal Sciences. Since its inception, the society has held an annual meeting to promote collaboration, cross-disciplinary research and mentorship within the field of Reproductive Immunology.

The American Journal of Reproductive Immunology (AJRI) is the official scientific journal of the ASRI and is ranked in the Top 10 in Reproductive Biology Journals, with a 5-year impact factor of 3.013. The AJRI publishes original research, reviews and opinion articles covering a range of topics within the field of Reproductive Immunology. The abstracts from the annual meeting are also published in AJRI.

For more information about the ASRI please visit us at www.theasri.org.

Invitation to Attend

On behalf of the American Society for Reproductive Immunology, it is with great enthusiasm that we invite you to attend the 43rd Annual Meeting, to be held at the Royal Sonesta Hotel, within walking distance to the Houston Galleria, shopping, and world class dining that Houston has to offer! Our meeting brings together basic scientists, clinician-scientists and healthcare providers who work together to translate scientific discoveries into improved patient care.

This is an excellent opportunity for exhibitors and sponsors to advertise and/or interact with our diverse membership made up of professionals working in academia, industry, and clinical settings. This year's meeting will be especially fitting for introducing and/or promoting new products and technologies. Fitting to Houston, America's Space City, the theme for ASRI 2024 is "*Advancing Beyond the Final Frontiers: Finding Solutions through Collaboration*". The Scientific Program committee has put together an exciting schedule of events, including plenary and break-out sessions led by leading national and international experts in the fields of Obstetrics & Gynecology, Immunology, Pediatrics, Infectious Diseases, Genetics, and Developmental Biology. We have multiple sponsorship opportunities for the annual meeting of ASRI 2024. Sponsors also receive complimentary registration, invitation to our Welcome Reception and Awards Banquet, and recognition on our website as well as the official program.

ASRI 2024 promises to provide multiple opportunities for learning, exchanging ideas and discovering up-and-coming technologies at a stunning venue. It is unique because it combines clinical medicine and reproductive immunology to create a synergistic scientific environment that brings together scientists, and clinicians worldwide. Our overall goal is to have scientists and physicians share their latest research and clinical findings. This meeting also looks to the future. Our Society is rich with the next generation of future scientists and clinicians (graduate students, postdoctoral fellows and residents) who will have a format to present their findings and to interact with leaders in the field of reproductive immunology.

We look forward to seeing you in Houston!

Meeting Location

Houston, TX, boasts a vibrant and diverse array of attractions that make it a city like no other. As the fourth-largest city in the United States, Houston is a diverse hub of world class culture, art, and entertainment. The city's **Space Center Houston** offers an awe-inspiring journey through space exploration, allowing visitors to walk in the footsteps of astronauts. Houston is home to the **Texas Medical Center**, the largest and one of the most prestigious medical complexes in the world. **Art enthusiasts** can revel in the renowned Museum District, home to an impressive collection of world-class museums, including the Museum of Fine Arts, The Menil Collection, and the Houston Museum of Natural Science. For **outdoor enthusiasts**, the Buffalo Bayou Park and Hermann Park provide a picturesque escape with walking trails, bike paths, and scenic views of the city's skyline. Houston is a city passionate about **sports** and boasts professional NFL, NBA, MLB, and MLS teams. It is home to the largest **rodeos** in the world celebrating Texas's rich cowboy culture. Houston is a **paradise of culinary delights**: With a thriving culinary scene that spans various cultures and cuisines, Houston promises a memorable foodie adventure that will leave you craving more.

Come join us in Houston, TX for **#ASRI2024** at the Royal Sonesta: located is right next to the Houston Galleria, a shopaholic's dream with over 375 stores, restaurants, an indoor ice rink, high-end boutiques, in Uptown with world-class dining.

Attendee Demographics

Target Audience

Basic, translational clinical scientists, scientists-in-training studying reproductive biology, immunology, infectious diseases, development, and related subjects

Clinicians, clinician-scientists, fellows, residents and epidemiologists who work in obstetrics & gynecology, infectious disease, neonatology, pediatrics, neuroscience, immune-related diseases and related fields.

Reasons to Attend

- Engage with serious medical professionals and scientists
- Meet current and future customers
- Generate new business opportunities with leaders in the field
- Interact and engage attendees in new ways – in person!
- Network with ASRI stakeholders, speakers and past presidents
